Sir:

A petition for a one-month extension of time has today been filed as a separate paper and a copy is attached hereto.

The rejection of all pending claims for obviousness over JP '097 in view of Mori et al is traversed for the reasons which follow.

A. JP '097 discloses no layer containing both (1) an ionizing radiation curable resin and (2) an acrylic copolymer which is a heat-reactive resin different from the "ionizing radiation curable resin."

1. The examiner is improperly interpreting JP '097 as teaching the curable composition, as described at the top of page 2 of the translation, as including an acrylamide-containing resin obtainable only as the cured product of the same curable composition.

As the examiner correctly notes, at page 12, line 21, of their original
